Chairman Message

"BPTPIA" was established in the year 2014 with aim to import quality education to the young minds of our state. Technological progress in the last few decades has helped to purge national barriers and create a global marketplace. Our aim is to teach students to LEARN, not just Study. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be molded. I also understand the need for the students to feel at home in the college environment. Both the teaching fraternity and the management team are amiable and affectionate, yet they make the students as discipciplined individuals such that success is always on their side. All amenities like computer labs with internet facility, library and laboratories, hostels, transport etc. function in full swing to make the students perform well. Added to this, to encourage sports and extracurricular activities among the students for overall development of students.

Er. Ravi Shankar Prasad Singh
(Chairman)
BPTPIA
